**MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE FISCAL YEARS ENDED DECEMBER 31, 2018 and 2017
(UNAUDITED)**

The management's discussion and analysis of the Central College Community Development Authority, Franklin County, Ohio (the Authority), financial performance provides an overall review of the Authority's financial activities for the fiscal years ended December 31, 2018 and 2017. The intent of this discussion and analysis is to look at the Authority's financial performance as a whole; readers should also review the notes to the basic financial statements and financial statements to enhance their understanding of the Authority's financial performance.

Financial Highlights

1. The Authority encourages the orderly development of a well-planned, diversified community initially of approximately 363 acres in Franklin County, including the City of Columbus.
2. Net position at December 31, 2018 totaled \$7,214. Net position at December 31, 2017 totaled \$7,647. Since inception, the construction of the infrastructure improvements have been managed by the City of Columbus. The Authority has an agreement with the City of Columbus whereby the Authority provides the City with all its resources collected from the bi-annual community charge, except amounts needed to pay the Authority's operating expenses. The City of Columbus also issues any long-term debt bonds needed to finance the infrastructure improvements. Accordingly, these long-term bonds are financed partially with the proceeds received from Authority payments to the City of Columbus.

Overview of the Financial Statements

This annual report consists of a series of financial statements and notes to those statements. These statements are organized so the reader can understand the Authority's financial activities and financial position. The *Statement of Net Position* and *Statement of Revenues, Expenses, and Changes in Net Position* provide information about the activities of the Authority, including all short-term and long-term financial resources and obligations. Enterprise accounting uses a flow of economic resources measurement focus. With this measurement focus, all assets and all liabilities are included in the Statement of Net Position. The Statement of Net Position represents the financial position of the Authority. The Statement of Revenues, Expenses, and Changes in Net Position presents increases (e.g., revenues) and decreases (e.g., expenses) in net position. The Statement of Cash Flows reflects how the Authority finances and meets its cash flow needs. Finally, the notes to the basic financial statements provide additional information that is essential to a full understanding of the data provided in the basic financial statements.

**MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE FISCAL YEARS ENDED DECEMBER 31, 2018 and 2017
(UNAUDITED)**

These financials look at all financial transactions and asks the question, how did we do financially? The Statement of Net Position and the Statement of Revenues, Expenses, and

Changes in Net Position answer this question. These statements include *all assets, liabilities, deferred inflows and outflows of resources, revenues, and expenses* using the *accrual basis of accounting*, similar to the accounting used by most private-sector companies. This basis of accounting takes into account all of the current year's revenues and expenses regardless of when cash is received or paid.

These two statements report the Authority's *net position* and changes in net position. This change in net position is important because it tells the reader that, for the Authority as a whole, the *financial position* of the Authority has improved or declined. The causes of this change may be the result of many factors, some financial, some not. These statements can be found on pages 6 and 7 of this report.

The Statement of Cash Flows provides information about how the Authority finances and meets the cash flow needs of its operations. The Statement of Cash Flows can be found on page 8 of this report.

The basic financial statements also include notes that explain some of the information in the financial statements and provide more detailed data.

Community Charge Revenues

The Authority had increases in community charge revenues for all three years presented. Revenues from Community Development Charges paid by each owner of a chargeable parcel will be used to pay cost to construct infrastructure located within the Authority. The Community Development Charge is calculated on thirty-five percent of the assessed value of chargeable property, which includes buildings, structures, and improvements. The Community Development Charge is currently levied at 4 mills. The amount of revenue will increase in years when available parcels are sold and improvements are made, thus increasing the total assessed value of chargeable property.

Change in Net Position

Although revenues from Community Development Charges increased for all years presented, there has been fluctuation in the change in net position. This is more a function of changes in operating expenses and payments to the City of Columbus. This is also a reflection that the Authority has an agreement to pay the City of Columbus all collected resources except for amounts needed to pay operating expenses.

Cooperation Agreement with the City of Columbus

The Authority has an agreement with the City of Columbus to transfer all of the Authority Funds, except amounts to pay for reasonable administrative costs, to the City of Columbus. These transfers are made to help fund the costs of Warner Road Phase II construction project. During the fiscal years 2018 and 2017, the Authority transferred \$305,842 and \$304,509 respectively, to the City of Columbus as provided by this agreement.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

The Authority distinguishes operating revenues and expenses from non-operating activities. Operating revenues and expenses generally result from providing services and producing and delivering goods or services in connection with the Authority's primary operations. All revenues and expenses not considered operating are reported as non-operating revenues and expenses

Cash received by the Authority is deposited with a financial institution. Deposit and investments having an original maturity of three months or less at the time they are purchased are presented in the financial statements as Cash and Cash Equivalents.

Net position represents the difference between assets and liabilities. Net position is reported as restricted when there are limitations imposed on their use either through enabling legislation adopted by the Authority or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments. The Authority first applies restricted resources when an expense is incurred for which both restricted and unrestricted net assets are available.
